

Do you dare to go beyond your self? To a new notion of reality, a new truth, that might change the world as you know and experience it right now?

Where everything you thought to be true, about yourself or about the world, no longer gives you a sense of control, but gets lost along the way...

To all the challenges we face as an individual, the solutions also lie at the level of the individual: you! In order to meet your 'self', you need to dig deeper, go beyond cultural conditioning, other people's opinions, and your own distorted beliefs that you have inherited from your personal past. But forget the traditional sessions of talking about the relationship with mothers and fathers, however important, we start beyond that.

Beyond Self is a 5-day intensive retreat designed to deeply question, observe and openly look at the story you created about yourself - with the sole purpose to get you beyond everything you thought to be true about who you are. This program intends to truly bring you a level deeper: down the rabbit hole! You will be guided in simple but proven exercises that produce astonishing insights and deeply satisfying life changing results. Nobody can do it for you, you need to be committed to dive in and take the risk... to lose everything as you know it now...

Beyond your self-concepts lies a world of freedom!
